Available only to HBAMT members, GBC memberships are a great value – current enrollment and yearly dues are as follows:

GREEN BUILDING COUNCIL MEMBERSHIP = \$85.00

Memberships are for twelve (12) months and start with your join date.

As an HBAMT Green Building Council member, you'll learn about the latest "green building" developments and innovations.

EDUCATIONAL OPPORTUNITIES

Educational seminars and classes are provided throughout the year and give GBC members an informational advantage not available to non-members.

GBC MONTHLY MEETINGS

One of the biggest benefits of an HBAMT Green Building Council Membership is that you can attend each of the council's sponsored monthly meetings free of charge. GBC meetings are a terrific place to educate yourself on green building issues, trends and technologies, and to network with other professionals eager to share resources and information. And with our new Annual Sponsorship package (see box at right), there are even more ways to promote your company at monthly GBC meetings!

WHAT IS "BUILDING GREEN?"

It seems like everything is "going green" lately; cars, companies, even your morning cup of coffee. And green homes are moving from niche market to mainstream.

So where do you fit in? And what does it mean to build green?

Building green means incorporating environmental considerations and resource efficiency into every step of the home building and land development process to minimize environmental impact. That means that during the design, construction, and operation of a home, the home's overall impact on the environment is taken into account.

ANNUAL SPONSORSHIPS

An HBAMT Green Building Council Annual Sponsorship allows you to promote your company at each council meeting for a fraction of the cost of their monthly rates. \$1,000 for the entire year (10 meetings.)
